*small arms survey - Medium*

Gun ownership is the act of owning a gun. In 2018, Small Arms Survey reported that there are over one billion small arms distributed globally, of which 857 million (about 85 percent) are in civilian hands. The Small Arms Survey stated that U.S. civilians alone account for 393 million (about 46 percent) of the worldwide total of civilian held firearms. ...

Source: Small Arms Survey Database on Urban Homicides. Figure 3 shows that large cities — those with more than 1.2 million inhabitants — are home to more people facing extreme violence.

*Small Arms Survey - Cambridge Core*

The Small Arms Survey is using the latter to further tyrannical disarmament goals worldwide, while falsely claiming impartiality, even as it plainly admits its mission is to give governments the tools they need to control the availability of firearms. And U.S. politicians will use the Survey's data as justification for citizen disarmament.

*3 Small Arms Survey*

The Small Arms Survey presents its findings on the number of firearms held by civilians, law enforcement agencies, and military forces in a series of three new Briefing Papers.
