Airbus A318 Operating

The list price of an A318 ranges from \$56 to \$62 million, and operating costs are between \$2,500 and \$3,000 for each flight hour. Orders for the A318 have been relatively slow, but slightly better than for its direct competitor the Boeing 737-600. At 30 September 2017, Airbus had received 80 orders for this model compared to 69 for the 737-600.

Airbus A318 - Wikipedia

Airbus' A318 is certified to land at steeper-than-usual gradients, with the potential to transform long-haul operations between city centres, as well as reduce time and costs for business travellers. The A318 was approved for steep approach landing capability by the European Aviation Safety Agency (EASA) in 2007, with this modern jetliner certified for a 5.5-degree approach slope.
