How To Guide! Full Duramax Allison transmission service! Filter & Fluid Change! This will save your transmission. I recommend this fluid and doing regular ma...

Duramax Allison Transmission Full Service Fluid & Filter ...

The seven Allison transmissions in the 1000 and 2000 series utilize a drain plug, a spin-on filter, and an internal filter. The internal filter is serviced only during a transmission overhaul, so don't worry about that one. Changing the spin-on filter and fluid is a simple task; it's basically the same as changing the oil in a car.

Allison Transmission Service - Family RVing Magazine

The Allison 1000 series is a line of automatic transmissions for on-road trucks and are 5 or 6-speed electronically controlled units. The Allison 1000 is rated to handle up to 620 lb-ft (841 N-m) of torque. A newer version 1000 was introduced in 2005 that added a 6th gear at the very top of the ratio ladder, making it double overdrive.

Remanufactured Allison 1000 Transmissions | Street Smart ...

Using transmission funnel fill transmission with 7.4 quarts of Transynd and check level. We recommend this service every 30-40 thousand miles to keep your Allison running its best. Allison does not recommend using a machine to filter or flush the transmission. More Info: Tests prove that Transynd™ will outperform other oils on every level:

Allison Service Package (Fluid & Filter) | DMAX Store

The Allison 1000 has been the standard automatic transmission for the Duramax diesel since its inception in 2001. At this time, transmission's size, strength, and versatility far exceeded anything available from the Duramax's direct competitors. The Allison 1000 was a five speed transmission from 2001 to 2005 model years, while a significant upgrade for the 2006 MY included the addition of a second overdrive gear, making it a six speed transmission.

Allison 1000 Transmission - Duramax Diesel Specs

Regular fluid and filter maintenance is the simplest thing you can do ensure the performance and durability of your Allison fully automatic transmission. While operating conditions may require more or less frequent fluid change intervals, we have designed extensive specifications and testing programs to ensure our recommendations closely match ...
