**Bell and Howell 16mm Movie Projectors for sale | eBay**

I'm using a green Bell & Howell 1692 (TQ-III Specialist) and want to use a black Bell & Howell 1698 (TQ3 specialist 16mm filmosound). Can anybody tell what's the difference between these projectors? I mainly use the internal trimpot to slow the projector down drastically. Does this work the same way on both TQ3 models? Thanks for the help! Floris
