## **Download DIN EN ISO 9692-1:2013-12 (E).pdf E-Book for free**

ISO 9692-1:2013 specifies types of joint preparation for metal arc welding with covered electrode, gas-shielded metal arc welding, gas welding, TIG welding, and beam welding of steel. It applies to joint preparation for full penetration butt welds and for fillet welds.

## **BS EN ISO 9692-1 : Wel di ng and alli ed processes — Types ...**

7:29 PM ISO 9692, Welding Joint Open Square Butt Preparation Used for welding thin components from one or both sides. If the

root gap is zero (ie if components are in contact), this preparation becomes a closed square butt preparation (not recommended due to problems caused by lack of penetration)!

## **BS EN ISO 9692-1-2003.pdf\_stdlibrary.com**

This part of ISO 9692 applies to types of joint preparation for submerged arc welding with one wire electrode (process 121 according to ISO 4063) on steel. This part of ISO 9692 covers only the welding positions PA and PB according to ISO 6947. In case PC is used, special preparation will be necessary. It applies to fully penetrated welds.

## **Types of Welding Preparation Refer to Standard BS EN ISO ...**

En iso 9692-2 case PC is used, special preparation will be necessary.
