A semi-automatic transmission (also known as an automated manual, clutchless manual, auto-manual, auto-clutch, semi-manual, trigger shift, flappy-paddle or paddle-shift gearbox) is an automobile transmission that combines manual transmission and automatic transmission. It's a partially automatic (and partially manual) transmission. Semi-automatic transmission refers to a conventional manual ...

manual gearbox, it's a sensation you'll never experience. Unfortunately, the list of cars you can enjoy with a manual transmission gets shorter each year. According to data from J.D. Power and Green Car Reports , sales of vehicles with manual transmissions have declined to the point that they're being outsold by electric cars.

# Download Free Fiat Manual Transmission

A manual transmission, also known as a manual gearbox, a standard transmission, stick shift, or simply stick, or gearbox, is a type of transmission used in motor vehicle applications. It uses a driver-operated clutch, usually engaged and disengaged by a foot pedal or hand lever, for regulating torque transfer from the engine to the transmission; and a gear selector that can be operated by hands.

## *Fiat Spider Transmission*

- Manual transmission by joystick or paddle shifters at steering wheel
- No more clutch pedal

In addition all the information can be displayed on the dash board for a deeper awareness of the driver. The Dualogic transmission is available on the 1.2 8v and 1.4 16v versions of the Fiat 500.
