re: changing fluids on an 841 (801) powermaster in reply to skfooter, 06-19-2006 11:37:14 The crankcase will be 5.5 or 6 qts.. keep inmind you need some for the air filter. i seem to remember the diffy being 8qts.. and 6 each for the hyds and tranny..

### **CHANGING FLUIDS ON AN 841 (801) POWERMASTER**

The Ford Powermaster series were a line of tractors started by the Ford Motor Company in 1957 in conjunction with the smaller Workmaster series.. They replaced the 800 and 900 series tractors with the 801 and 901 series. The Powermaster series tractors were similar to their earlier cousins, with minor improvements to horsepower and a new power steering option, among other small changes.

Ford was a major manufacturer of farm tractors for much of the 20th Century. The Ford brand was first used on tractors in 1939 with the introduction of the 9N, although the Fordson brand had already been in use for 20 years. The European Fordson brand and US Ford brand were consolidated in 1964 with the creation of a global tractor line.

I have an 801 ford diesel tractor and I'm looking for the schematic drawings of the injector pump. The pump leaks fuel down into the oil pan. I have the Manual but it doesn't show the schematics. Hope someone can help me. Please send email with information. Thanks. Frank Beights: I've got a 901d with the same problem and I have the shop manual.

### **ford 801 powermaster - SSB Tractor**

The Ford 801 was a Ford agricultural tractor produced from 1957 to 1962. Models released in 1957, including the 801 model, featured a new front grill with cross-section bars. The 801 model was known as the "Powermaster 801," designating its engine specification that made it different from the base 601 model.
