By Jason Holbrook Regional Sales Manager, Absolute Haitian Corp.. Injection molding machinery suppliers often receive requests for quotes asking for pricing based on the tonnage of the machine only. When asked for more details, the buyer might respond, "I just need a 1,000-ton quote." Better to consider the molding machine as two separate pieces — the clamp unit and the injection unit ...

A guide to sizing injection molding machines | Plastics ...

The injection blow molding (IBM) process produces billions of plastic containers each year. Ranging in size from 1 ml to 2 liters, these containers meet exacting standards of consistent weight, volume and tolerance, and are popular around the world for a myriad of applications from pharmaceuticals to toiletries to automotive to household use.
