~~JNDI API Tutorial and Reference: Building Directory ...~~

The Java Naming and Directory Interface (JNDI) is a Java API for a directory service that allows Java software clients to discover and look up data and resources (in the form of Java objects) via a name.Like all Java APIs that interface with host systems, JNDI is independent of the underlying implementation. Additionally, it specifies a service provider interface (SPI) that allows directory ...

~~Obtaining JMS objects using JNDI~~

Client JNDI - This is a mechanism by which remote components can be accessed using the JNDI APIs, but without network round-trips. This approach is the most efficient, and removes a potential single point of failure. For this reason, it is highly recommended to use Client JNDI over traditional remote JNDI access. However, to make this possible ...

~~JNDI API tutorial and reference : building directory ...~~

Now, JNDI's architect and one of its lead developers team up to present the first comprehensive JNDI tutorial and reference: everything developers need to build world-class directory-enabled applications with Java. Starting from the basic foundations, the book introduces key JNDI concepts and techniques needed to write, compile, and run JNDI ...

### ~~The JNDI Tutorial~~

This book provides an introduction to naming and directory technologies and an overview of the Java Naming and Directory Interface(tm) (JNDI). The tutorial in this book progresses from the most basic to advanced JNDI capabilities and techniques, including more than 200 working examples that demonstrate writing, compiling, and running directory-enabled Java(tm) programs.

### ~~DataSource—Memorial University of Newfoundland~~

In this tutorial, we'll follow the same flow as the Persistence with Queues tutorial but use JNDI to retrieve the JMS Objects. Obtaining JMS objects using JNDI requires a lookup of a Solace messaging resource by its reference in a JNDI store and then creating a local JMS object from the information returned. With the local JMS object ...
