Cased Hole Logging. See All Our Services. GAMMA RAY/GAMMA GUN. The Dialog gamma ray service measures naturally occurring gamma ray levels within the well bore. Available in both a stand alone service and also in conjunction with our explosives operations, the log is used for identification of the formation lithology. ...

[Cased hole logging services - Archer](#)

The context is, therefore, that of open hole, but some of the tools are closely related to their cased-hole equivalents. Borehole imaging has been one of the most rapidly advancing technologies in wireline well logging. The applications range from detailed reservoir description through reservoir performance to enhanced hydrocarbon recovery.

QES Wireline has solutions for all of your Cased Hole Logging requirements. Each QES Wireline service location offers a complete range of logging services. All logging services are available for critical/hostile well environments including: high temperature/high pressure, sour gas, high angle/deviated wellbore and pump-down services.

[Cased-Hole Wireline | Weatherford International](#)

To provide a depth reference between open hole and cased hole measurements and services. Basic tools. The basic cased hole tools can be divided into three general groups: correlation, saturation, and porosity. The correlation device is used to correlate cased hole measurements with open hole measurements and to estimate shale volume.

With over 76 years of cased hole logging experience, Halliburton is qualified to solve all your cased-hole challenges. We offer cement evaluation, reservoir monitoring, perforating, pipe recovery, casing evaluation and mechanical needs products and services.

[Cased-Hole Evaluation - Halliburton](#)

Our comprehensive cased-hole wireline services—including production logging, casing and cement evaluation, and saturation logging—provide actionable reservoir data that identifies your downhole issues, pinpoints bypassed production, and gives a hyper-accurate well-integrity assessment that helps ensure maximum asset recovery.

[Cased Hole Logging - Quintana Energy Services](#)

Understand the well and the reservoir rock and fluids. Whether you need engineered perforating, production or crosswell logging, or well integrity evaluation, our comprehensive cased hole logging services make sure your wells can continue to reach their full production potential, year in, year out.

[Cased hole tools - AAPG Wiki](#)

Specialist cased hole logging services to assist in maximising hydrocarbon recovery and optimising the performance of your wells. Well Integrity. Expert support for well integrity evaluation, providing a detailed understanding of casing and cement, and early detection of potential integrity issues.
