MTAB FLEXTURN CNC Lathes - MachineTools.com
You can actually gain instant access to a step-by-step guide on how to build your own CNC wood router for a tiny fraction of the cost of a professional CNC woodcarving machine. Pre-built CNC woodcarving machines can cost upwards of \$10,000, but this homemade solution can be put together for less than \$1000. Included is:

MTAB XLTURN CNC Lathes - machine tools
The machine is built on casted base and bed and offered with industrial CNC control system. Dynamically calibrated cartridge spindle, Hydraulic Chuck and tailstock with integrated base are ideally suited for industrial production. Max Turn plus can be
