## ~~Democratic legitimacy of the European Union—Wikipedia~~

One of the world's economic and political superpowers, the European Union has brought about far-reaching changes to the lives of Europeans and helped its member states collectively to take a more assertive role on the global stage.

## ~~Politics In The European Union~~

The politics of the European Union are different from other organisations and states due to the unique nature of the European Union. The EU is similar to a confederation, where many policy areas are federalised into common institutions capable of making law; however the EU does not, unlike most states, control foreign policy, defence policy or the majority of direct taxation policies. These areas are primarily under the control of the EU's member states although a certain amount of structured co

The EU is governed by the principle of representative democracy, with citizens directly represented at Union level in the European Parliament and Member States represented in the European Council and the Council of the EU.

## ~~The History and Purpose of the European Union~~

In the European Union, there are two sources of democratic legitimacy: the European Parliament, chosen by the electorates of the individual EU countries; and the Council of the European Union (the "Council of Ministers"), together with the European Council (of heads of national governments), that represent the peoples of the individual states.
