

## Saltwater Aquarium Beginner Guide

### Saltwater Aquarium Beginner Guide

When starting a saltwater aquarium at home, the rule of thumb is not to rush things. You can't set up a new aquarium and throw in a large group of fish, then expect them to survive. The tank setup needs to be carefully chosen and put together, and the fish that live within it need to be suited to that environment.

### Starting a Saltwater Aquarium for Beginners | Fish Tank World

A good size of aquarium, saltwater, for beginners, is going to be between 20 and 55 gallons, with somewhere around 50 gallons being the ideal size for beginners. Fish need room, you want to be able to decorate, and waste tends to build up quickly in very small tanks.
