Many years ago, I purchased a Realistic PRO-2021 Scanner and a GRE Super Converter 9001, with no accompanying literature, from a friend who showed me how to use the equipment. Having recently moved and unpacked my equipment after a number of years of non-use, I am attempting to figure the hardware out again.

The Joystick Rehab project is about locating, discussing, and reviewing various methods for converting joysticks from the old IBM DA15 interface into USB, due to the fact that Microsoft Windows ceased support for DA15 with Windows Vista. There are several ways to do this. The first major method is the simple Gameport adapter, which has an old-school female 15-pin Joystick port on one end, and ...
