Contingent Leadership - Practical Management

The Fiedler Contingency Model asks you to think about your natural leadership style, and the situations in which it will be most effective. The model says that leaders are either task-focused, or relationship-focused. Once you understand your style, it says that you can match it to situations in which that style is most effective.

Fiedler's Contingency Theory of Leadership - with Examples

A contingency theory is an organizational theory that claims that there is no best way to organize a corporation, to lead a company, or to make decisions. Instead, the optimal course of action is contingent (dependent) upon the internal and external situation. A contingent leader effectively applies their own style...

Summary. Fiedler's Contingency Theory of Leadership states that your effectiveness as a leader is determined by how well your leadership style matches the situation. The theory is based on the premise that each of us has one and only one leadership style which can be scored on the Least Preferred Co-worker (LPC) scale.

What is Contingency Theory?

However, unlike situational theories, contingency leadership theories are based on the premise that leadership styles are fairly rigid or relatively inflexible. Therefore, it is very difficult, if not impossible, for a dictator or a task oriented leader to change his / her style to becoming a participative or employee oriented leader. This category, therefore, suggests that for a school head to be successful or effective, the officials in the
