Disagreement (Stanford Encyclopedia of Philosophy)

Suppose you and I are equally well informed on some factual issue and equally competent in forming beliefs on the basis of the information we possess. Having ev

The Epistemic Significance of Disagreement

Compared to many other topics treated in this encyclopedia, the epistemology of disagreement is a mere infant. While the discussion of disagreement isn't altogether absent from the history of philosophy, philosophers didn't start, as a group, thinking about the topic in a rigorous and detailed way until the 21st century.

Despite all the efforts of these individuals, errors and inadequacies no doubt remain. This book is written in the spirit of intellectual humility that it advocates. While it will not end the debate on the epistemic significance of disagreement, my hope is that it advances this debate in meaningful ways.

The Epistemic Significance of Disagreement

Epistemology of Disagreement. Standard explanations, such as self-interested biases, are insufficient. An additional part of the explanation is our commitment to, or belief in, norms that disallow responses that amount to no firm judgment, as contrasted with definite agreement or disagreement.

ABILITY: An individual's familiarity with the relevant evidence and arguments, and their epistemic virtues such as intelligence, thoughtfulness, and freedom from bias. ACCURACY: The probability of an individual's belief about p being correct, conditional on their disagreement with another individual.

Epistemic Significance of Disagreement | The Philosophical ...

This chapter develops a justificationist account of the significance of disagreement between epistemic peers. Whereas current views maintain that disagreement, by itself, either simply does or does not possess epistemic power, this chapter's account holds that its epistemic power, or lack thereof, is explainable in terms of the degree of justified confidence with which the belief in question is held.

The Epistemic Significance of Disagreement | J. Matheson ...

1. Disagreement and Epistemology. Disagreement is philosophically interesting. In particular, it is interesting to those looking to analyze the norms of belief and knowledge. Disagreement is, then, epistemically significant. Disagreements come in many forms—there are disagreements between the more informed and less, and there are disagreements between those with good track records on the issue and those with less-than-good.

The Epistemic Significance Of Disagreement

My aim in this paper is to explore the epistemic significance of disagreement. A central concern is whether the practice of retaining beliefs that are rejected by individuals over whom one
